

Covid-19 Visitor Code of Conduct Appendix

We are not anticipating that visitors are going to come to school. However if a visitor does ask to come they will need to ring the main office to explain the purpose for the visit. The Head Teacher or Deputy Head Teacher will decide if a visitor can have access to the building.

A visitor will be expected to arrive via the main entrance and to socially distance themselves from all staff, parents and pupils. They will identify themselves and then be directed where they need to go. Before entering the school they must sanitize their hands with antibacterial hand gel.

A visitor will be told they cannot enter the school if they have any signs or symptoms of COVID-19

Visitors are not to go anywhere near pupils.
