

## Covid-19 Behaviour Policy Appendix

### Aims

We endeavour to promote an ethos of self discipline in a caring environment, conducive to effective learning.

We encourage pupils to make right choices and to take responsibility for their actions.

### General School Rules

During this difficult time we will expect the children to continue to follow the existing rules but also adhere to new ones (as followed)

- I will wash my hands when asked to do so
- I will remain at my desk when directed to
- I will keep a distance from other people when moving around school
- When I sneeze I will put my dirty tissue in the bin
- I will only engage with pupils in my group (indoors and outdoors)

### Sanctions

For the safety and protection of all, a system of sanctions exists for those children who cannot adhere to our high standards of expected behaviour.

Inappropriate behaviour is managed by:

- Recording of inappropriate behaviour on a Behaviour Log Sheet
- Removal from class for a set period of time, specified by the class teacher, to sit outside the classroom after 3 warnings (Warnings will be issued by teachers for inappropriate behaviour and recorded on the Warning Chart)

Further non compliance after returning to class the Head Teacher, or Deputy Head Teacher, will take appropriate action.

If a child is not able to maintain the high standards of behaviour their parents will be contacted and asked to remove the child from school for the safety of all staff and children.
